

Environmental Philosophy Statement

GB ACCESS LTD endeavour to meet all statutory requirements covering Health, Safety and the Environment. The Company takes seriously the possible impact on the environment resulting from our activities, and consequently undertake the following:

- Identify and evaluate the environmental consequences of the company's activities.
- Where possible, adopt options which are most beneficial to the environment.
- Where there is a need to use sub-contractors only those that comply with our environmental policy and that of our clients will be engaged.
- The company undertake to record any communications concerning environmental matters, the response and action taken.
- Review and audit environmental performance at regular intervals and rectify any deficiencies.
- Liaise with local and/or statutory authorities and the public where applicable.
- Review environmental issues in the light of changing legislation, directives or approved codes of practice.
- Exercise our moral duty of care in matters concerning the environment.
